- D. The above-named Contractor and Surety hereby jointly and severally agree with the Government that every claimant as herein defined, who has not been paid in full before the expiration of a period of forty five (45) days after the date on which the last of such claimant's work or labor was done or performed, or materials were furnished by such claimant, may sue on this bond for use of such claimant, prosecute the suit to final judgment for such sum or sums as may be justly due claimant, and have execution thereon. The Government shall not be liable for the payment of any costs or expenses of any such suit.

Such notice shall be personally served by mailing the same by registered mail or certified mail, postage prepaid, in an envelope addressed to the Contractor at any place the principal maintains an office or conducts its business.

The term "Contractor" as used herein means the party or parties who or which shall have duly entered into a contract with the Government of Guam to perform the work herein contemplated or his or their authorized assignee.

4. Notice

The term "Notice" as used herein shall mean and include all written notice demands, instructions, claims, approvals and disapprovals required to obtain compliance with contract requirements. Any written notice by either party to the contract shall be sufficiently given if delivered to or at the last known business address of the person, firm, or corporation constituting the other party to the contract, or to his, their, or its duly authorized agent, representative, or officers, or when enclosed in a postage prepaid envelope addressed to such last known business address and deposited in a United States mail box. The Contractor must provide and maintain a post office address within the Territory of Guam and file the same with the Contracting Officer.

5. Forms Enclosed

The copies of the form of agreement, form of bid bond, form of performance and of payment bond enclosed herewith are incorporated in these General Conditions by reference and are made a part hereof to the same extent as though fully set forth herein.

II. CONSTRUCTION CONTRACT

1. Contract Documents

- (a) The contract documents consist of the Agreement, the drawings, and specifications, including all addenda and alterations made in the documents prior to their execution.
- (b) The contract documents shall be signed by the Owner and Contractor in as many original counterparts as may be mutually agreed.
- (c) Anything called for by one of the contract documents and not called for by the others shall be of like effect as if required or called for by all. In case of discrepancies between the contract documents, the specifications shall take precedence over the drawings, and the agreement shall take precedence over the drawings and specifications. Any discrepancies between the contracts documents shall be called to the attention of the Contracting Officer before proceeding with work affected thereby.
- (d) It will be conclusively presumed that the Contractor has read, examined and agreed to each and every term, conditions, provisions, covenant or agreement in the drawings, specifications, proposals, contract, and bond related to the work to be carried on, said documents being on file in the Contracts Administration Section office, Department of Public Works, Tumon, Guam.

2. Drawings

- (a) The general character and scope of the work are illustrated by the drawings. Any additional detail drawings and other information deemed necessary by the Contracting Officer will be furnished to the Contractor when and as required.
- (b) In case of differences between small scale and large scale drawings, the large-scale drawings shall govern. Figured dimensions on the drawings shall be considered primary compared with measurements obtained through scaling of drawings. The Contractor shall verify all dimensions, and if any be lacking, he shall call the attention thereto and be governed by the decision of the Contracting Officer.
- (c) Where on any of the drawings a portion of the work is drawn out and the remainder is indicated in outline, the parts drawn out shall apply also to all other like portions of the work.
- (d) Where the word "similar" occurs on the drawings, it shall be interpreted in its general sense and not as meaning identical.
- (e) The approval of shop and setting drawings will be general and, except as otherwise provided in paragraph, shall not be construed (1) as permitting any

departure from the contract requirements, (2) as relieving the Contractor of the responsibility for any error in details, dimensions and otherwise that may exist; (3) as approving departures from additional details or instructions previously furnished by the Contracting Officer.

3. Detail Drawings and Instructions

(a) The Contractor will be furnished additional instructions and detail drawings as may be necessary to carry out the work included in the contract. The additional drawings and instructions thus supplied to the Contractor shall be consistent with the contract documents and true developments thereof, and shall be so prepared that they can be reasonably interpreted as a part thereof. The Contractor shall carry out the work in accordance with the additional detail drawings and instructions.

(b) The Contracting Officer, at any time, without notice to the sureties may, by written order designated or indicated to be a change order, make any change in the work within the general scope of the contract, including but not limited to changes:

- (1) In the specifications (including drawings and designs);
- (2) In the method or manner of performance of the work;
- (3) In the Government-furnished facilities, equipment, materials, services for site; or
- (4) Directing acceleration in the performance of the work.

(c) Any other written order or an oral order (which terms as used in this paragraph (b) shall include direction, instructions, interpretations or determination from the Contracting Officer) which causes any such change, shall be treated as a change order under this clause, provided that the Contractor gives the Contracting Officer written notice stating the date, circumstances and source of the order and that the Contractor regards the order as a change order.

(d) Except as herein provided, no order, statement, or conduct of the Contracting Officer shall be treated as a change order under this clause or entitle the Contractor to an equitable adjustment hereunder.

(e) If any change under this clause causes an increase or decrease in the Contractor's cost of, or the time required for the performance of any part of the work under this contract, whether or not changed by any order, an equitable adjustment shall be made and the contract modified in writing accordingly, provided, however, that except for claims based on defective specifications no claim for any change under (b) above shall be allowed for any costs incurred more than 20 calendar days before the Contractor gives written notice as therein required. And provided further, that in the case of defective specifications for which the Owner is responsible, the equitable adjustment shall include any increased cost reasonably incurred by the Contractor in attempting to comply with such defective

specifications.

(f) If the Contractor intends to assert a claim for an equitable adjustment under this clause, he must, within 30 calendar days after receipt of a written change order under (a) above or the furnishing of a written notice under (b) above, submit to the Contracting Officer a written statement setting forth the general nature and monetary extent of such claim, unless this period is extended by the Owner. The statement of claim hereunder may be included in the notice under (b) above.

(g) No claim by the Contractor for an equitable adjustment hereunder shall be allowed if asserted after final payment under this contract.

4. Shop Drawings

(a) The Contractor shall submit for the approval of the Contracting Officer, shop and setting drawings and schedules required by the specifications or that may be requested by the Contracting Officer and no work shall be fabricated by the Contractor, save at his own risk, until such approval has been given.

(b) Drawings and schedules shall be submitted in quadruplicate (unless otherwise specified) accompanied by letter of transmittal which shall give a list of the numbers and dates of the drawings submitted. Drawings shall be complete in every respect and bound insets.

(c) The Contractor shall submit all drawings and schedules sufficiently in advance of construction requirements to allow ample time for checking, correcting, resubmitting and rechecking.

(d) The drawings submitted shall be marked with the name of the project, numbered consecutively and bear the stamp of approval of the Contractor as evidence that the drawings have been checked by the Contractor. Any drawings submitted without this stamp of approval will not be considered and will be returned to the Contractor for resubmission. If the shop drawings show variations from the requirements of the contract because of standard shop practice or other reasons, the Contractor shall make specific mention of such variation in his letter of transmittal so that if any variations are acceptable, suitable action may be taken for proper adjustment; otherwise, the Contractor will not be relieved of the responsibility for executing the work in accordance with the contract even though such shop drawings have been approved.

(e) If a drawing as submitted indicates a departure from the contract requirements which the Contracting Officer finds to be in the interest of the Owner and to be so minor as not to involve a change in the contract price or time for performance, he may approve the drawing.

5. Specifications and Drawings

(a) The Contractor shall keep on the work site a copy of the drawings and specifications including all authorized change orders, and shall at all times give the Owner, Contracting Officer and their representatives access thereto.

(b) All drawings and specifications and copies thereof furnished by the Contracting Officer are his property and shall not be used on other projects without his consent. Upon completion of this project all copies of the drawings and specifications except the signed contract sets are to be returned to the Contracting Officer upon his request.

6. Special Requirements

(a) Where special requirements, provisions or specifications or detailed specifications are attached hereto or are included in the proposal they shall be considered a part of these general conditions or specifications or detailed specifications as fully as if contained herein. Should any special provisions be in conflict with these general conditions or specifications or detailed specifications, said special requirements, provisions or detailed specifications shall govern.

(b) Person in charge of electrical wiring and installations shall be a licensed Master Electrician and/or registered electrical engineer in Guam.

7. Explanation to Bidders

No oral explanation in regard to the meaning of the drawings and specifications will be made and no oral instructions will be given before the award of the contract. Discrepancies, omissions, or doubts as to the meaning of drawings and specifications should be communicated in writing to the Contracting Officer for interpretation. Bidders should act promptly and allow sufficient time for a reply to reach them. Every interpretation made to a bidder will be in the form of an addendum to the contract documents which, if issued, will be sent as promptly as practicable to all persons to whom the drawings and specifications have been issued. All such addenda shall become part of the contract documents.

III. BIDS, BIDDER RESPONSIBILITIES

1. Conditions at Site or Building

(a) Bidders should visit the site and shall be responsible for having ascertained pertinent conditions such as location, accessibility, and general character of the site or building, the character and extent of existing work within or adjacent to the site, and any other work being performed thereon at the time of the submission of his bid. No extra compensation will be made by reason of any misunderstanding or

error as regards to the site, the conditions thereof, accessibility or the amount of kind of work to be performed.

2. Submission of Bids

- (a) The bidder is required to bid on all items called for in the Bid Form.
- (b) Bids shall be submitted on the forms furnished or copies thereof, and shall be signed in ink. Erasures or other changes in a bid must be explained or noted over the signature of the bidder. Bids containing any conditions, omissions, unexplained erasures or alterations or items not called for in the proposal or irregularities of any kind may be rejected by the Owner as being incomplete.
- (c) Each bid must give the full business address of the bidder and be signed by him with his usual signature. Bids by partnerships must furnish the full names of all partners and must be signed in the name of the partnership by one of the members of the partnership or by an authorized representative followed by the signature and designation of the person signing. Bids by corporations must be signed with the legal name of the corporation, followed by the name of the State of incorporation and by the signature and designation of the president, secretary, or other person authorized to bind it in the matter. The name of each person signing shall also be typed or printed below the signature. A bid by a person who affixes to his signature the word "president", (agent or other designation, without disclosing his principal), may be held to the bid of the individual signing. When requested by the Owner, satisfactory evidence of the authority of the officer signing in behalf of the corporation shall be furnished.

3. Bid Guarantee

Bids shall be accompanied by a bid guarantee of not less than fifteen percent (15%) of the total bid amount for which an award can be made. Bid guarantee may be bid bond (form enclosed), certified check or cashier's check. Bid bond shall be signed by the bidder, two major officers of the Surety and Resident General Agent, if the Surety is a foreign or alien surety and shall be accompanied with copies of current Certificate of Authority to do business on Guam issued by the Department of Revenue and Taxation, Power of Attorney issued by the Surety to the Resident General Agent and Power of Attorney issued by two major officers of the Surety to whoever is signing on their behalf. Certified check or cashier's check must be issued by a banking institution licensed to do business on Guam and shall be made payable to the Treasurer of Guam. Such bid bond or check shall be submitted with the understanding that it shall guarantee that the bidder will not withdraw his bid for a period of sixty (60) calendar days after the scheduled closing time for the receipt of bids; that if his bid is accepted, he will enter into a formal contract with the Owner in accordance with the form of agreement included as a part of the contract documents, and that the required performance and payment bond will be given; and

that in the event of the withdrawal of said bid within said period, or the failure to enter into said contract and give said bond within fifteen (15) working days after he has received notice of the acceptance of his bid, the bidder shall be liable to the Owner for the full amount of the bid guarantee as representing the damage to the Owner on account of the default of the bidder in any particular hereof. The bid guarantee shall be returned to all except the three lowest bidders within three days after the formal opening of bids. The bid guarantee of the second and/or third low bidder shall be returned thirty (30) calendar days after the bid opening date upon request, provided that he has not been notified by the Owner of the acceptance of his bid prior to the date of such request. The bid guarantee of the lowest qualified bidder shall be returned within forty eight (48) hours after the Owner and the qualified bidder have executed the contract.

4. Withdrawal of Bids

Bids may be withdrawn on written or telegraphic request received from bidders prior to the time fixed for opening. Negligence on the part of the bidder in preparing the bid confers no right to the withdrawal of the bid after it has been opened.

5. Publicity of Bids

At the time fixed for the opening of bids, the contents of the bids will be made public for the information of bidders and others properly interested who may be present either in person or by representation.

6. Receipt and Opening of Bids

(a) Bids will be opened publicly at the time and place stated in the invitation for bids. The officer whose duty it is to open them will decide when the specified time has arrived and bids received thereafter will not be considered. No responsibility will be attached to any officer for the premature opening of a bid not properly addressed and identified.

(b) Telegraphic bids will not be considered, but modifications by telegraph of bids already submitted will be considered if received prior to time set for opening.

7. Rejection of Bids

The Owner reserves the right to reject any and all bids when such rejection is in the interest of the Owner and to reject the bid of a bidder who is not in a position to perform the contract.

8. Award of Contract

(a) The contract will be awarded as soon as possible to the lowest responsive

and responsible bidder, provided it is in the interest of the Owner to accept his bid.

(b) The Owner reserves the right to waive any informality in bids received when such waiver is in the interest of the Owner. The Owner also reserves the right to accept any item in the bid and to reject any item in the bid unless otherwise specified by the Owner.

9. Performance and Payment Bond

The successful bidder must deliver to the Owner an executed performance and payment bond (forms enclosed) in an amount at least equal to one hundred percent (100%) of the accepted bid as security for the faithful performance of the contract and security for the payment of all persons performing labor and furnishing materials in connection with this contract. (d) If the Contractor, after notice, fails to proceed promptly to comply with the terms of the guarantee, the Owner may have the defects corrected and the Contractor and his surety shall be liable for all expense incurred.

No work or material which may be defective in construction or quality or deficient in any of the requirements of the drawings and specifications will be considered accepted as a consequence of the failure of the Contracting Officer or the inspectors to discover or to point out said defects or deficiencies during the construction; nor will the presence of inspectors on the work relieve the Contractor from the responsibility of securing the quality and progress of work as required by these specifications.

Any defective work that may be discovered before the completion of the work or within such time as required by the bond shall be replaced by work and materials that shall conform to the spirit and intent of the drawings, specifications and contract.

The Contractor shall be charged with any cost of inspection when material and workmanship are not ready at the time inspection is requested by the Contractor.

(c) Should it be considered necessary or advisable by the Contracting Officer at any time before final acceptance of the entire work to make an examination of work already completed by removing or tearing out same, the Contractor shall on request promptly furnish all necessary facilities, labor and materials. If such work is found to be defective in any material respect due to the fault of the Contractor or his subcontractors, he shall defray all the expenses of such examination and of satisfactory reconstruction. If, however, such work is found to meet the requirements involved in the examination and replacement, the cost of conducting the test plus 15 percent shall be allowed the Contractor and he shall in addition, if completion of the work has been delayed thereby, be granted a suitable extension of time on account of the additional work involved.

5. Final Inspection

When the work is substantially completed the Contractor shall notify the Owner, in writing, that the work will be ready for final inspection and test on a definite date which shall be stated in such notice. The notice shall be given at least ten (10) calendar days in advance of said date and shall be forwarded through the Contracting Officer who will attach his endorsement as to whether or not he concurs in the Contractor's statement that the work will be ready for final inspection or tests on the date given but such endorsement shall not relieve the Contractor of this responsibility in the matter.

VII. TIME FOR PERFORMANCE

The Contractor agrees that said work shall be prosecuted regularly, diligently and without interruption at such rate of progress as will insure full completion thereof within the time specified. It is expressly understood and agreed by and between the Contractor and the Owner that the time for completion of the same takes into consideration the average climatic range and usual industrial conditions prevailing in the locality.

However, no adjustment shall be made under this clause for any suspension, delay or interruption to the extent:
 - (1) that performance would have been so suspended, delayed, or interrupted by any other cause, including the fault or negligence of the contractor; or
 - (2) For which an adjustment is provided for or excluded under any other provision of this contract.
- (c) **Time Restriction on Claim** - No claim under this clause shall be allowed:
 - (1) For any costs incurred more than twenty (20) days before the contractor shall have notified the Director of Public Works or the Head of a Purchasing Agency in writing of the act or failure to act involved (but this requirement shall not apply as to a claim resulting from suspension order); and
 - (2) unless the claim is asserted in writing as soon as practicable after the termination of such suspension , delay, interruption, but no later than the date of final payment under the contract.
- (d) **Adjustments of Price** - Any adjustment in contract price made pursuant to this clause shall be determined in accordance with the Price Adjustment Clause of this contract.

3. Termination for Convenience

- (1) **Termination** - The Procurement Officer may, when the interest of the

territory so require, terminate this contract in whole or in part, for the convenience of the territory. The Procurement Officer shall give written notice of the termination to the contractor specifying the part of the contract terminated becomes effective.

(2) Contractor's Obligations - The contractor shall incur no further obligations in connection with the terminated work and on the date set in the notice of termination the contractor will stop work to the extent specified. The contractor shall also terminate outstanding orders and subcontracts as they relate to the terminated work. The contractor shall settle the liabilities and claims arising out of the termination of subcontracts and orders connected with the terminated work. The Procurement Officer may direct the contractor to assign the contractor's right, title, and interest under terminated orders or subcontracts to the territory. The contractor must still complete the work not terminated by the notice of termination and may incur obligations as necessary to do so.

(1) Right to Construction and Supplies - The Procurement Officer may require the contractor to transfer title and deliver to the territory in the manner and to the extent directed by the Procurement Officer:

(a) any completed construction; and

(b) such partially completed construction, supplies, materials, parts, tools, dies, jigs, fixtures, plans, drawing, information, and contract rights (hereinafter called construction material) as the contractor has specifically produced or specially acquired for the performance of the terminated part of the contract.

The contractor shall protect and preserve property in the possession of the contractor in which the territory has an interest. If the Procurement Officer does not exercise this right, the contractor shall use best efforts to sell such construction, supplies, and construction materials in accordance with the standards of 14 GCA §2706 (UCC). (See end of Subsection 6101 (10)(d) for code quotation.) This in no way implies that the territory has breached the contract by exercise of the Termination for Convenience Clause.

(2) Compensation

(a) The contractor shall submit a termination claim specifying the amounts due because of the termination for convenience together with cost or pricing data, submitted to the extent required by section 3118 (Cost or Pricing Data) of the Guam Procurement Regulations, bearing of such claim. If the contractor fails to file a termination claim within one year from the effective date of termination, the Procurement Officer may pay the contractor, if at all, an amount set in accordance with subparagraph

(c) of this Paragraph.

(b) The Procurement Officer and the contractor may agree to a settlement provided the contractor has filed a termination claim supported by cost or pricing data submitted as required by §3118 (Cost or Pricing Data) of the Guam Procurement Regulations and that the settlement does not exceed the total contract price plus settlement costs reduced by payments previously made by the territory, the proceeds of any sales of construction materials under Paragraph (3) of this clause, and the contract price of the work not terminated.

(c) Absent complete agreement under Subparagraph (b) of this paragraph, the Procurement Officer shall pay the contractor the following amounts, provided payments under Subparagraph (b) shall not duplicate payments under this Paragraph:

(i) with respect to all contract work performed prior to the effective date of the notice of termination, the total (without duplication of any items) of:

(A) the cost of such work plus a fair and reasonable profit on such portion of the work (such profit shall not include anticipatory profit or consequential damages) less amounts paid or to be paid for completed portions of such work; provided, however, that if it appears that the contractor would have sustained a loss if the entire contract would have been completed, no profit shall be allowed or included and the amount of compensation shall be reduced to reflect the anticipated rate of loss;

(B) Cost of settling and paying claims arising out of the termination of subcontractors or orders pursuant to Paragraph (2) of this clause. This cost must not include cost paid in accordance with Subparagraph (c)(I)(A) of this Paragraph.

C) the reasonable settlement costs of the contractor including accounting, legal, clerical, and other expenses reasonably necessary for the preparation of settlement claims and supporting data with respect to the terminated portion of the contract and for the termination and settlement of subcontracts thereunder, together with reasonable storage, transportation, and other costs incurred in connection with the protection or disposition of property allocable to the terminated portion of this contract. The total sum to be paid

the contractor under this Paragraph shall not exceed the total contract price plus the reasonable settlement costs of the contractor reduced by the amount of any sales of construction materials under Paragraph (3) of this clause, and the contract price of work not terminated.

- (d) Cost Claimed, agreed to, or established under Subparagraph (b) and (c) of this Paragraph shall be in accordance with Chapter 7 (Cost Principles) of the Guam Procurement Regulations.

4. Remedies Clause

Any dispute arising under or out of this contract is subject to the provisions of Chapter 9 (Legal and Contractual Remedies) of the Guam Procurement Regulations.

3. Climatic Conditions

- (a) When so ordered by the Contracting Officer, the Contractor shall suspend any work that may be subject to damage by climatic conditions.

(b) Contract Completion Time. The allowable work days for this contract were calculated after allowing for the following number of lost days in each month. Time extension on account of inclement weather will be allowed only if the daily report of the Contracting Officer's inspector indicates lost days beyond the limits shown below. Time extension on account of inclement weather on Saturday and Sunday shall be granted only if the Contractor confirms in writing at least seven (7) calendar days in advance his intention to work on weekends.

Month	Non-Working Days	Month	Non Working Days
January	07	July	10
February	05	August	11
March	05	September	12
April	04	October	10
May	05	November	07
June	06	December	07

4. Progress Report

The Contractor shall submit monthly progress report in triplicate to the Contracting Officer briefly setting forth work accomplished.

5. Owner's Right to Stop Work or Terminate Contract, Delays, Damages

(a) If:

(1) The Contractor shall be adjudged bankrupt or make an assignment for the benefit of creditors;

(2) A receiver or liquidator shall be appointed for the Contractor or for any of his property and shall not be dismissed within 20 calendar days after such appointment, or the proceedings in connection therewith shall not be stayed on appeal within the said 20 calendar days;

(3) The Contractor shall refuse or fail, after Notice of Warning from the Contracting Officer, to supply enough properly skilled workmen or proper materials; or

(4) The Contractor shall refuse to prosecute the work or any part thereof with such diligence as will insure its completion within the period herein specified (or any duly authorized extension thereof) or shall fail to complete the work within said period, or;

(5) The Contractor shall fail to make payments as specified to persons supplying labor or materials for the work, or;

(b) Non-Performance or Delay, Damages for Delay, Time Extensions

(1) **Default.** If the Contractor refuses or fails to prosecute the work, or any separable part thereof, with such diligence as will assure its completion within the time specified in this contract, or any extension thereof fails to complete said work within such time, or commits any other substantial breach of this contract, and further fails within fourteen (14) days after receipt of written notice from the Procurement Officer to commence and continue correction of such refusal or failure with diligence and promptness, the Procurement Officer may, by written notice to the contractor, declare the contractor in breach and terminate the contractor's right to proceed with the work or such part of the work as to which there has been delay. In such event the territory may take over the work and prosecute the same to completion, by contract or otherwise, and may take possession of, and utilize in completing the work, such materials, appliances, and plant as may be on the site of the

work and necessary therefor. Whether or not the contractor's right to proceed with the work is terminated, the contractor and the contractor's sureties shall be liable for any damage to the territory resulting from the contractor's refusal or failure to complete the work within the specified time.

- (2) **Liquidated Damages Upon Termination.** If fixed and agreed liquidated damages are provided in the contract, and if the territory so terminates the contractor's right to proceed, the resulting damage will consist of such reasonable time as may be required for final completion of the work.
- (3) **Liquidated Damages in Absence of Termination.** If fixed and agreed liquidated damages are provided in the contract, and if the territory does not terminate the contractor's right to proceed, the resulting damage will consist of such liquidated damages until the work is completed or accepted.
- (4) **Time Extension.** The contractor's right to proceed shall not be so terminated nor the contractor charged with resulting damage if:
 - (a) The delay in the completion of the work arises from causes such as; acts of God; acts of the public enemy; acts of the territory, and any other territorial entity in either a sovereign or contractual capacity; acts of another contractor in the performance of a contract with the territory; fires; floods; epidemics; quarantine restrictions; strikes or other labor disputes; freight embargoes; unusually severe weather; delays of subcontractors due to cause similar to those set forth above; or shortage of materials; provided, however, that no extension of time will be granted for a delay caused by a shortage of materials, unless the contractor furnished to the Procurement Officer proof that the contractor has diligently made every effort to obtain such materials from all known sources within reasonable reach of the work, and further proof that the inability to obtain such materials when originally planned did in fact cause a delay in final completion of the entire work which could not be compensated for by revising the sequence of the contractor's operations' and
 - (b) The contractor, within ten days from the beginning of any such delay (unless the Procurement Officer grants a further period of time before the date of final payment under the contract), notifies the Procurement Office in writing of the causes of delay. The Procurement Officer shall ascertain the facts and the extent of the delay and extend the time for completing the work when, in the judgment of the Procurement Officer, the findings of fact justify

such an extension.

(5) **Erroneous Termination for Default.** If, after notice of termination of the contractor's right to proceed under the provisions of this clause, it is determined for any reason that the contractor was not in default under the provisions of this clause, or that the delay was excusable under the provisions of this clause, the right and obligations of the parties shall, if the contract contains a clause providing for termination for convenience of the territory, be the same as if the notice of termination had been issued pursuant to such clause. If, in the foregoing circumstance, this contract does not contain a clause providing for termination for convenience of the territory, the contract shall be adjusted to compensate for such termination and the contract modifies accordingly.

(6) **Additional Rights and Remedies.** The rights and remedies of the territory provided in this clause are in addition to any other rights and remedies provided by law or under this contract.

VIII. CLAIMS, PAYMENTS

1. Contractor's Title to Materials

No materials or supplies for the work shall be purchased by the Contractor or by any subcontractor subject to any chattel mortgage or under a conditional sale or other agreement by which an interest is retained by the seller. The Contractor warrants that he has good title to all materials and supplies for which he accepts partial payments.

2. Claims

The Contractor agrees whenever required to do so by the Owner to furnish satisfactory evidence that all persons, firms or corporations who have done work or supplied materials under these specifications have been paid or have been duly notified of the completion of the work and have been secured to their satisfaction before the said Contractor shall be entitled to final payment.

In case such evidence is not furnished or in case any claim is filed with the Owner or any suit or action is instituted against the Owner as defendant or garnishes or against the Contractor in connection with the work performed or to be performed under the drawings, specifications or contract, the Owner may retain from the money due or to become due to the Contractor such sum or sums as in the judgment of the Contracting Officer will fully protect the Owner from loss, charge or expense by reason of such claim, suit or action. The Owner without prejudice to any other and further rights, may make any and all deductions for any loss, charge or expense sustained by it to which it would be entitled under the contract specifications or

bond, or otherwise before paying over the balance of the sum or sums retained as aforesaid, if any, to the Contractor, his creditor, or any successful claimant against the Contractor.

No payment made or retained under this contract shall be held to relieve the Contractor and/or his sureties from his and/or their obligations under this bond to hold harmless and indemnify the Owner or its agents from any and all loss, charge or expense by reason of any unpaid claim whatsoever.

3. Claims Based On The Director Of Public Works or the Head of a Purchasing Agency's Actions or Omissions

(1) Notice of Claim. If any action or omission on the part of the Director of Public Works or the head of the Purchasing Agency or designee of such officer, the requiring performance changes within the scope of the contract constitute the basis for a claim by the contractor for additional compensation, damages, or an extension of time for completion, damages, or an extension of time for completion, the contractor shall continue with the performance of the contract in compliance with the directions or orders of such officials, but by so doing, the contractor shall not be deemed to have prejudiced any claim or additional compensation damages, or an extension of time for completion; provided;

(a) The contractor shall have given written notice to the Director of Public Works, the head of the Purchasing Agency, or designee of such officer:

- (i)** Prior to the commencement of the work involved, if at that time the contractor knows of the occurrence of such action or omission;
- (ii)** Within 30 days after the contractor knows of the occurrence of such action or omission, if the contractor did not have such knowledge prior to the commencement of the work; or
- (iii)** Within such further time as may be allowed by the Procurement Officer in writing.

This notice shall state that the contractor regards the act or omission as a reason which may entitle the contractor to additional compensation, damages, or an extension of time. The Procurement Officer or designee of such officer, upon receipt of such notice, may rescind such action, remedy such omission, or take such other steps as may be deemed advisable in the discretion of the Procurement Officer or designee of such officer.

(b) The notice required by Subparagraph (a) of this Paragraph describes as clearly as practicable at the time reasons why the contractor believes

that additional compensation, damages, or an extension of time may be remedies to which the contractor is entitled; and

- (c) The contractor maintains and, upon request, makes available to the Procurement Officer within a reasonable time, detailed records to the extent practicable, of the claimed additional costs or basis for an extension of time in connection with such changes.

(2) **Limitations of Clause.** Nothing herein contained, however, shall excuse the contractor from compliance with any rules of law precluding any territorial officers and any contractors from acting in collusion or bad faith in issuing or performing change orders which are clearly not within the scope of the contract.

(3) **Adjustments of Price.** Any adjustment in the contract price made pursuant to this clause shall be determined in accordance with the Price Adjustment Clause of this Contract.

4. Waiver of Mechanics Liens

Contractor waives any right that he now has or in the future may have to claim a mechanic's lien against the real property or improvements thereon which are the subject of this contract, to secure payment for labor and materials furnished or to be furnished by him under this contract.

5. Schedule of Values

Within three days after receipt of notice to proceed, the Contractor shall submit for approval a schedule of the estimated values of the main branches of the work totaling the amount of the contract. The format to be used will be furnished by the Contracting Officer. These values will be used for determining partial payments and as a basis for changes in work as outlined in the General Conditions.

6. Taxes

The Contractor shall, without additional expense to the Owner, pay all applicable taxes. The successful bidder will be required to comply with the applicable sections of Titles 11 and 21 of the Guam Code Annotated, as regards to licenses and taxes. In addition to the general contractor's liability, subcontractors are also subject to these provisions. Subcontractors are also required to possess Guam Service Licenses. The Contractor will be required to submit a list of his subcontractors and the monetary amount of each subcontract.

7. Materials, Services and Facilities

It is understood that except as otherwise specifically stated in the contract

documents, the Contractor shall provide and pay for all materials, labor, tools, equipment, water, light, power, transportation, superintendence, temporary construction of every nature whatsoever necessary to execute, complete and deliver the work within the specified time.

8. Patents

The Contractor shall hold and save the Owner and his officers, agents, servants, and employees harmless from liability of any nature or kind, including cost and expenses, for or on account of any patented or unpatented invention, process, article or appliance manufactured or used in the performance of the contract including its use by the Owner, unless otherwise specifically stipulated in the contract documents.

9. Payment by Contractor

The Contractor shall pay;

(a) For all transportation and utility services not later than the 20th day of the calendar month following that in which such services are rendered;

(b) for all materials, tools, and other expendable equipment to the extent of 90 percent of the cost thereof, not later than the 20th day of the calendar month following that in which such materials, tools and equipment are delivered at the site of the project, and the balance of the cost thereof not later than the 30th day following the completion of that part of the work in or on which such materials, tools and equipment are incorporated or used;

(c) To each of his subcontractors, not later than the 5th day following each payment to the Contractor, the respective amounts allowed the Contractor on account of the work performed by his subcontractors, to the extent of such subcontractor's interest therein.

10. Extras

Except as otherwise herein provided, no charge for any extra work or materials will be allowed unless the same has been ordered in writing by the Owner and either the price is stated in such order or a definite acknowledgment is made that a change in price is involved subject to later determination.

11. Differing Site Conditions (Please refer to Alternative "B" for this project)

(Alternative A)

(1) Notice - The contractor shall promptly, and before such conditions are

disturbed, notify the Director of Public Works or the Head of a Purchasing Agency of:

(a) Subsurface or latent physical conditions at the site differing materially from those indicated in this contract; or

(b) Unknown physical conditions at the site, of an unusual nature, differing materially from those ordinarily encountered and generally recognized as inherent in work of the character provided for in this contract.

(2) Adjustment of Price or Time for Performance - After receipt of such notice, the Director of Public Works or the Head of a Purchasing Agency shall promptly investigate the site, and if it is found that such conditions do materially so differ and cause an increase in the contractor's cost of, or the time required for, performance of any part of the work under this contract, whether or not changed as a result of such conditions, an adjustment shall be made and the contract modified in writing accordingly. Any adjustment in contract price made pursuant to this clause shall be determined in accordance with the Price Adjustment Clause of this contract.

(3) Timeliness of Claim - No claim of the contractor under this clause shall be allowed unless the contractor has given the notice required in this clause; provided, however, that the time prescribed therefor may be extended by the Director of Public Works or the Head of a Purchasing Agency in writing.

(4) No Claim After Final Payment - No claim by the contractor for an adjustment thereunder shall be allowed if asserted after final payment under this contract.

(5) Knowledge - nothing contained in this clause shall be grounds for an adjustment in compensation if the contractor had actual knowledge of the existence of such conditions prior to the submission of bids.

(Alternative B)

The contractor accepts the conditions at the construction site as they eventually may be found to exist and warrants and represents that the contract can and will be performed under such conditions, and that all materials, equipment, labor and other facilities required because of any unforeseen conditions (physical or otherwise) shall be wholly at the contractor's own cost and expense, anything in this contract to the contrary notwithstanding.

12. Price Adjustment

(1) Any adjustment in contract pursuant to clauses in this contract shall be made in one or more of the following ways:

- (a) By agreement on fixed price adjustment before commencement of the pertinent performance or as soon thereafter as practicable;
 - (b) By unit prices specified in the contract or subsequently agreed upon;
 - (c) by the costs attributable to the event or situation covered by the clause, plus appropriate profit or fee, all as specified in the contract or subsequently agreed upon;
 - (d) in such other manner as the parties may mutually agree; or
 - (e) in the absence of an agreement between parties, by a unilateral determination by the Director of Public Works or the Head of a Purchasing Agency of any cost attributable to the event or situation covered by the clause, plus appropriate profit or fee, all as computed by the Director of Public Works or the Head of a Purchasing Agency in accordance with generally accepted accounting principles with applicable sections under Chapter 7 (Cost Principles) of the Guam Procurement Regulations and subject to the provisions of Article 5, Chapter 5 of 5 GCA (Legal and Contractual Remedies) of the Guam Procurement Act.
- (3) Submission of Cost or Pricing Data - The contractor shall submit cost or pricing data for any price adjustments subject to the provisions of §3118 (Cost or Pricing Data) of the Guam Procurement Regulations.

13. Changes in Work

(a) The Owner may at any time, by a written order, and without notice to the sureties, make changes in the drawings and specifications of this contract and within the general scope thereof. However, no change will be made which increases the total contract price without notice to sureties. In making any change, the charge or credit for the change shall be determined by the following method:

- (1) The actual cost of:
 - I. Labor, including foreman
 - II. Materials entering permanently into the work
 - III. Equipment rental cost during time used on extra work
 - IV. Power and consumable supplies
 - V. Insurance
 - VI. To the above cost there shall be added a fixed fee to be agreed upon, but not to exceed 15% of the net cost. This fee shall be compensation to cover the cost of supervision,

overhead, bond, profit and other general expenses.

(b) The Contractor shall, when required by the Owner, furnish to the Owner an itemized breakdown of the quantities and prices used in computing the value of any change that might be ordered.

(c) In figuring changes, instructions for measurement of quantities set forth in the specifications shall be followed.

(d) If any part of the work as installed is at variance with the contract requirements, the Owner may, if he finds it to be in his interest, allow all or any part of such work to remain in place subject to a proper adjustment in the contract price.

14. Payment to Contractor

(a) Unless otherwise provided in the specifications, the Owner will make partial payments to the Contractor after receipt and approval of the request for partial payment covering the work performed during the proceeding calendar month. No payments for installed materials on the site will be made unless such request is accompanied by a receipt or certification showing that the Contractor has made payment in full for such work done. In preparing such estimates, preparatory work done shall not be considered for payment. Materials delivered to site shall be considered for payment subject to the following conditions:

(1) The material shall be kept in a safe and enclosed warehouse or area located on site with restricted access.

(2) The receipt and issue of material must be controlled by a stock card kept in the warehouse.

(3) Insurance coverage required under Section 11, Chapter IV of the General Conditions shall include insurance of such material and shall include theft insurance.

(4) Request for payment must be accompanied with certification and receipts indicating the cost of material and showing that Contractor has made full payment for such material.

(b) In making such partial payments there shall be retained ten percent (10%) of the estimated amount until final completion and acceptance of all work covered by the contract. However, if the Contracting Officer, at any time after 50 percent of the work has been completed, finds that satisfactory progress is being made, he may authorize payment in full of each progress payment for work performed beyond the 50 percent stage of completion. Also, whenever the work is substantially complete,

the Contracting Officer, if he considers the amount retained to be in excess of the amount adequate for the protection of the Government, at his discretion, may release to the Contractor all or a portion of such excess amount.

(c) All materials and work covered by partial payments made shall thereupon become the sole property of the Owner, but this provision shall not be construed as relieving the Contractor from the sole responsibility for all materials and work upon which payment have been made, or the restoration of any damaged work or as a waiver of the right of the Owner to require the fulfillment of all of the terms of the contract.

(d) Release of Claims - Neither the final payment or any part of the retained percentage shall become due until the Contractor shall deliver to the Owner through the Contracting Officer a complete release of all claims against the Owner arising under and by virtue of this contract, including claims of all subcontractors and suppliers of either materials or labor, other than such claims, if any, as may be specifically excepted by the Contractor.

(e) Certificate of Completion - Upon completion and acceptance of all work whatsoever required and the release of all claims against the Owner as specified, the Contracting Officer shall file a written certificate with the Owner and with the Contractor as to the entire amount of work performed and compensation earned by the Contractor, including extra work and compensation therefore.

(f) Final Payment - Within thirty (30) calendar days after the filing of such certificate of completion, the Owner shall pay to the Contractor the amount therein stated less all prior payments and advances whatsoever to or for the amount of the contract. All prior estimates and payments including those relating to extra work shall be subject to correction by this payment which is throughout this contract called Final Payment.

(g) Acceptance of Final Payment Constitutes Release - The acceptance by the Contractor of the final payment shall be and shall operate as a release to the Owner of all claims and of all liability to the Contractor for all things done or furnished in connection with this work and for every act and neglect of the Owner and others relating to or arising out of this work, excepting the Contractor's claims for interest upon the final payments if this payment be improperly delayed. No payments, however, final or otherwise shall operate to release the Contractor or his sureties from any obligations under this contract or the performance and payment bonds.

IX. MISCELLANEOUS

1. Prohibited Interests

(a) No member of or Delegate to Congress or Resident Commissioner, shall be

admitted to any share or part of this contract or to any benefit that may arise therefrom, but this provision shall not be construed to extend to this contract if made with a corporation for its general benefit.

(b) No official of the Owner who is authorized in such capacity and on behalf of the Owner to negotiate, make, accept or approve, or to take part in negotiating, making, accepting or approving any architectural, engineering, inspection, construction or material supply contract or any subcontract in connection with the construction of the project, shall become directly or indirectly interested personally in this contract or in any part hereof. No officer, employee, architect, attorney, engineer, or inspector of or for the Government of Guam authorized to exercise any legislative, executive supervisory or other similar functions in connection with the construction of the project, shall become directly or indirectly interested personally in this contract or in any part thereof, any material supply contract, subcontract, insurance contract, or any other contract pertaining to the project.

2. Mandatory Disputes Clause

1.1 The Government and the Consultant agree to attempt resolution of all controversies which arise under, or are virtue of, this Agreement through mutual agreement. If the controversy is not resolved by mutual agreement, then the Consultant shall request the Government in writing to issue a final decision within six days after receipt of the written request. If the Government does not issue a written decision within six days after written request for final decision, or within such longer period as may be agreed upon by the parties, then the Consultant may proceed as though the Government had issue a decision adverse to the Consultant.

1.2 The Government shall immediately furnish a copy of the decision to the Consultant, by certified mail with a return receipt requested, or by any other method that provides evidence of receipt.

1.3 The Government's decision shall be final and conclusive, unless fraudulent or unless the Consultant appeals the decision.

1.4 This subsection applies to appeals of the Government's decision on the dispute. For money owed by or to the Government under this Agreement, the Consultant shall appeal the decision in accordance with the Government Claims Act by initially filing a claim with the Office of the Attorney General no later than eighteen months after the decision is rendered by the Government or from the date when a decision should have been rendered. For all other claims by or against the Government arising under this Agreement, the Office of the Public Auditor has jurisdiction over the appeal from the decision of the Government. Appeals to the Office of the Public Auditor must be made within sixty days of the Government's decision or from the date the decision should have been made.

1.5 The Consultant shall exhaust all administrative remedies before filing an action in the Superior Court of Guam in accordance with applicable laws.

1.6 The Consultant shall comply with the Government's decision and proceed diligently with performance of the Agreement pending final resolution by the Superior Court of Guam of any controversy arising under, or by virtue of, this Agreement, except where the Consultant claims a material breach of this Agreement by the Government. However, if the Government determines in writing that continuation of services under this Agreement is essential to the public's health or safety, then the Consultant shall proceed diligently with performance of the Agreement notwithstanding any claim of material breach by the Government.

OFFICE OF THE GOVERNOR
HAGATÑA, GUAM
U.S.A.

EXECUTIVE ORDER NO. 2012-04

RELATIVE TO AMENDING EXECUTIVE ORDER NO. 2000-10 TO
PROMOTE ON-THE-JOB TRAINING AND THE HIRING APPRENTICES
FOR GOVERNMENT OF GUAM CONSTRUCTION PROJECTS

WHEREAS, on April 11, 2000, Executive Order No. 2000-10 *Relative to Enhancing the Apprentice Training Program Through Hiring of Apprentices for Government of Guam Construction projects* was enacted for the purpose of requiring the employment of apprentices to assist the Guam Department of Labor in encouraging the employment and training of local labor in the construction industry; and

WHEREAS, since the enactment of Executive Order No. 2000-10, other certified apprentice training programs, including programs supported by the Department of Public Works which offer on-the-job (OJT) training, have become available to supplement the existing programs offered by the Guam Contractors Association and the Guam Community College; and

WHEREAS, apprenticeship programs provide valuable local labor opportunities for individuals desiring to learn new skills and enter the construction industry, thus lowering unemployment levels and reducing dependency on alien workers; and

WHEREAS, it is in the best interest of the Territory to require the employment of apprentices on Government of Guam construction projects; and

NOW, THEREFORE, I, EDWARD J.B. CALVO, *I Maqulahan Guillian*, Governor of Guam, by virtue of the authority vested in me by the Organic Act of Guam, as amended, do hereby ORDER that Executive Order No. 2000-10 is amended and re-enacted as follows:

1. Government Policy. It is the policy of the Government of Guam that all construction projects funded in whole or in part by local or federal funds shall require the contractor to employ at least One (1) apprentice for every Ten (10) workers for the duration of each project, and not less than One (1) apprentice per project. This requirement may only be waived if the contracting agency certifies that no apprentice is available.
2. Application to All Construction of Public Works Projects over One Hundred Thousand Dollars (\$100,000). This Executive Order applies to all public works construction projects such as the erection, maintenance, rehabilitation, repair, or demolition of any public building, roadway, or any public facility as defined in

SPECIAL PROVISIONS

SPECIAL PROVISIONS

1. General Intention.

It is the declared intention and meaning to provide and secure the design and construction of
**“Replace and Relocate Main Power Electrical Transformer at Mangilao Public Health,
Project No.: 470-5-1072-L-MAN”**

2. Contractor.

The Contractor and each and every subcontractor shall read the entire Bid Documents and by the act of submitting a bid, shall be deemed to have accepted all conditions contained therein.

3. Standards.

The standards referenced in this specification (including addenda, amendments and errata listed) shall govern in all cases where the references thereto are made. In case of difference between the referenced standards and its accompanying drawings, accompanying drawings shall govern to the extent of such difference; otherwise the referenced standards shall apply. Extra care shall be exercised to refer in requests for quotations in orders and in subcontracts to all modifications thereof.

4. Time for Completion.

It is hereby understood and mutually agreed, by and between the Contractor and the Government of Guam, that the date of beginning, rate of progress and the time for completion of the work to be done hereunder are essential conditions of this contract; and it is further mutually understood and agreed that the work embraced in this contract shall be commenced on a date to be specified in the Notice to Proceed (NTP) and shall be completed within **Ninety (90) calendar days** after issuance of NTP complete and ready for use.

5. Liquidated Damages.

It is hereby understood and mutually agreed, by and between the Contractor and the Government of Guam, that liquidated damages shall be assessed for each calendar day the work remains incomplete.

If the said contractor shall neglect, fail or refuse to complete the work within the time herein specified, the Contractor does hereby agree, as a part consideration for the awarding of this contract, to pay to the Government of Guam the amount *of one-fourth of one percent of the contract value per calendar day* not as a penalty but as liquidated damages for such breach of contract as hereinafter set forth, for each and every calendar day that the Contractor shall be in default the time stipulated in the contract for completing the work.

The said amount is fixed and agreed upon by and between the Contractor and the Government of Guam because of the impracticability and extreme difficulty of fixing and ascertaining the actual damages the Government of Guam would in such event sustain, and said amounts shall be retained from time to time by the Government of Guam from current periodical estimates.

It is further agreed that time is of the essence of each and every portion of this contract and of the specifications wherein a definite and certain length of time is fixed for the performance of any act whatsoever; and where under the contract an additional time is allowed for the completion of any work, the new time limit fixed by such extension shall be of the essence of this contract. Provided, that the Contractor shall not be charged with liquidated damages of any excess cost when the delay in completion of the work is due

ALL OCCUPATIONS LISTED ABOVE RECEIVE THE FOLLOWING BENEFITS:

HEALTH & WELFARE: \$4.02 per hour or \$160.80 per week or \$696.79 per month

VACATION: 2 weeks paid vacation after 1 year of service with a contractor or successor; and 4 weeks after 3 years. Length of service includes the whole span of continuous service with the present contractor or successor, wherever employed, and with the predecessor contractors in the performance of similar work at the same Federal facility. (Reg. 29 CFR 4.173)

HOLIDAYS: A minimum of ten paid holidays per year, New Year's Day, Martin Luther King Jr's Birthday, Washington's Birthday, Memorial Day, Independence Day, Labor Day, Columbus Day, Veterans' Day, Thanksgiving Day, and Christmas Day. (A contractor may substitute for any of the named holidays another day off with pay in accordance with a plan communicated to the employees involved.) (See 29 CFR 4174).

THE OCCUPATIONS WHICH HAVE NUMBERED FOOTNOTES IN PARENTHESES RECEIVE THE FOLLOWING:

1) **COMPUTER EMPLOYEES:** Under the SCA at section 8(b), this wage determination does not apply to any employee who individually qualifies as a bona fide executive, administrative, or professional employee as defined in 29 C.F.R. Part 541. Because most Computer System Analysts and Computer Programmers who are compensated at a rate not less than \$27.63 (or on a salary or fee basis at a rate not less than \$455 per week) an hour would likely qualify as exempt computer professionals, (29 C.F.R. 541. 400) wage rates may not be listed on this wage determination for all occupations within those job families. In addition, because this wage determination may not list a wage rate for some or all occupations within those job families if the survey data indicates that the prevailing wage rate for the occupation equals or exceeds \$27.63 per hour conformances may be necessary for certain nonexempt employees. For example, if an individual employee is nonexempt but nevertheless performs duties within the scope of one of the Computer Systems Analyst or Computer Programmer occupations for which this wage determination does not specify an SCA wage rate, then the wage rate for that employee must be conformed in accordance with the conformance procedures described in the conformance note included on this wage determination.

Additionally, because job titles vary widely and change quickly in the computer industry, job titles are not determinative of the application of the computer professional exemption. Therefore, the exemption applies only to computer employees who satisfy the compensation requirements and whose primary duty consists of:

- (1) The application of systems analysis techniques and procedures, including consulting with users, to determine hardware, software or system functional specifications;
- (2) The design, development, documentation, analysis, creation, testing or modification of computer systems or programs, including prototypes, based on and related to user or system design specifications;
- (3) The design, documentation, testing, creation or modification of computer programs related to machine

operating systems; or
(4) A combination of the aforementioned duties, the performance of which requires the same level of skills. (29 C.F.R. 541.400).

2) AIR TRAFFIC CONTROLLERS AND WEATHER OBSERVERS - NIGHT PAY & SUNDAY PAY: If you work at night as part of a regular tour of duty, you will earn a night differential and receive an additional 10% of basic pay for any hours worked between 6pm and 6am. If you are a full-time employed (40 hours a week) and Sunday is part of your regularly scheduled workweek, you are paid at your rate of basic pay plus a Sunday premium of 25% of your basic rate for each hour of Sunday work which is not overtime (i.e. occasional work on Sunday outside the normal tour of duty is considered overtime work).

HAZARDOUS PAY DIFFERENTIAL: An 8 percent differential is applicable to employees employed in a position that represents a high degree of hazard when working with or in close proximity to ordnance, explosives, and incendiary materials. This includes work such as screening, blending, dying, mixing, and pressing of sensitive ordnance, explosives, and pyrotechnic compositions such as lead azide, black powder and photoflash powder. All dry-house activities involving propellants or explosives. Demilitarization, modification, renovation, demolition, and maintenance operations on sensitive ordnance, explosives and incendiary materials. All operations involving regrading and cleaning of artillery ranges.

A 4 percent differential is applicable to employees employed in a position that represents a low degree of hazard when working with, or in close proximity to ordnance, (or employees possibly adjacent to) explosives and incendiary materials which involves potential injury such as laceration of hands, face, or arms of the employee engaged in the operation, irritation of the skin, minor burns and the like; minimal damage to immediate or adjacent work area or equipment being used. All operations involving, unloading, storage, and hauling of ordnance, explosive, and incendiary ordnance material other than small arms ammunition. These differentials are only applicable to work that has been specifically designated by the agency for ordnance, explosives, and incendiary material differential pay.

**** UNIFORM ALLOWANCE ****

If employees are required to wear uniforms in the performance of this contract (either by the terms of the Government contract, by the employer, by the state or local law, etc.), the cost of furnishing such uniforms and maintaining (by laundering or dry cleaning) such uniforms is an expense that may not be borne by an employee where such cost reduces the hourly rate below that required by the wage determination. The Department of Labor will accept payment in accordance with the following standards as compliance:

The contractor or subcontractor is required to furnish all employees with an adequate number of uniforms without cost or to reimburse employees for the actual cost of the uniforms. In addition, where uniform cleaning and maintenance is made the responsibility of the employee, all contractors and subcontractors subject to this wage determination shall (in the absence of a bona fide collective bargaining agreement providing for a different amount, or the furnishing of contrary affirmative proof as to the actual cost), reimburse all employees for such cleaning and maintenance at a rate of \$3.35 per week (or \$.67 cents per day). However, in those instances where the uniforms furnished are made of "wash and wear" materials, may be routinely washed and dried with other personal garments, and do not require any special treatment such as dry cleaning, daily washing, or commercial laundering in order to meet the cleanliness or appearance standards set by the terms of the Government contract, by the contractor, by law, or by the nature of the work, there is no requirement that employees be reimbursed for uniform maintenance costs.

The duties of employees under job titles listed are those described in the "Service Contract Act Directory of Occupations", Fifth Edition, April 2006, unless otherwise indicated. Copies of the Directory are available on the Internet. A links to the Directory may be found on the WHD home page at <http://www.dol.gov/esa/whd/> or through the Wage Determinations On-Line (WDOL) Web site at <http://wdol.gov/>.

REQUEST FOR AUTHORIZATION OF ADDITIONAL CLASSIFICATION AND WAGE RATE {Standard Form 1444 (SF 1444)}

Conformance Process:

The contracting officer shall require that any class of service employee which is not listed herein and which is to be employed under the contract (i.e., the work to be performed is not performed by any classification listed in the wage determination), be classified by the contractor so as to provide a reasonable relationship (i.e., appropriate level of skill comparison) between such unlisted classifications and the classifications listed in the wage determination. Such conformed classes of employees shall be paid the monetary wages and furnished the fringe benefits as are determined. Such conforming process shall be initiated by the contractor prior to the performance of contract work by such unlisted class(es) of employees. The conformed classification, wage rate, and/or fringe benefits shall be retroactive to the commencement date of the contract. {See Section 4.6 (C)(vi)} When multiple wage determinations are included in a contract, a separate SF 1444 should be prepared for each wage determination to which a class(es) is to be conformed.

The process for preparing a conformance request is as follows:

- 1) When preparing the bid, the contractor identifies the need for a conformed occupation(s) and computes a proposed rate(s).
- 2) After contract award, the contractor prepares a written report listing in order proposed classification title(s), a Federal grade equivalency (FGE) for each proposed classification(s), job description(s), and rationale for proposed wage rate(s), including information regarding the agreement or disagreement of the authorized representative of the employees involved, or where there is no authorized representative, the employees themselves. This report should be submitted to the contracting officer no later than 30 days after such unlisted class(es) of employees performs any contract work.
- 3) The contracting officer reviews the proposed action and promptly submits a report of the action, together with the agency's recommendations and pertinent information including the position of the contractor and the employees, to the Wage and Hour Division, Employment Standards Administration, U.S. Department of Labor, for review. (See section 4.6(b)(2) of Regulations 29 CFR Part 4).
- 4) Within 30 days of receipt, the Wage and Hour Division approves, modifies, or disapproves the action via transmittal to the agency contracting officer, or notifies the contracting officer that additional time will be required to process the request.
- 5) The contracting officer transmits the Wage and Hour decision to the contractor.
- 6) The contractor informs the affected employees.

Information required by the Regulations must be submitted on SF 1444 or bond paper.

When preparing a conformance request, the "Service Contract Act Directory of Occupations" (the Directory) should be used to compare job definitions to insure that duties requested are not performed by a classification already listed in the wage determination. Remember, it is not the job title, but the required tasks that determine whether a class is included in an established wage determination. Conformances may not be used to artificially split, combine, or subdivide classifications listed in the wage determination.
